# GIVELLO CUSTOM SERVICE 2026'

*Every cyclist wants to stand out—whether it's making an impact in the peloton, building team identity, or creating a kit that reflects who they are.  
With Givelo Custom, designing your kit becomes simple, personal, and truly yours.*

---

We work with you step-by-step to bring your idea to life. From your first idea to the final stitch, we obsess over every detail so your kit not only looks exceptional but performs at the highest level. And with our signature Givelo quality, your kit becomes a mark of precision, comfort and craftsmanship.

# BUILD YOUR IDEAL KIT

## 1 Select your products and get a quote.

Quote valid for 30 working days.

*Speak with our team to select your items, understand features, and receive a tailored quote. We'll guide you through fits, fabric options, and sizing recommendations.*

## 2 Design & Visualize

3-5 Working days.

*After approving the quote and paying a \$65 USD design deposit, our team begins creating your concepts. Share your ideas, references, and editable logos. You'll receive multiple 3D design options to choose from.*

## 3 Color Test + Approval

3 Working days.

*We print a small-scale colour sample on the exact fabric for your approval. Once you confirm design, sizes, and quantities, and pay 50% of the order, production begins.*

## 4 Production

35 Working Days.

1. Selection and pattern cutting of fabrics.
2. Sublimation (printing) of each section.
3. Printing process quality control.
4. Fabrication
5. Final quality control and packing.

## 5 Delivery

Shipping via FedEx, times vary on destination.

*Before shipping, your Givelo representative will coordinate the final 50% payment and delivery details.*

# G92 LIGHT

## SHORT-SLEEVE JERSEY

*A short-sleeve jersey built for riders who want performance, comfort, and a clean modern design.*

*Ideal for training, racing, or everyday riding — lightweight, breathable, and engineered with seven years of refinement.*

## How does the sizing work?

*All bib shorts are gender-specific. Socks are one size fits all. Jerseys, Vests and Jackets are unisex. You can refer to our sizing charts online or book a fit kit. All unisex items are also adjusted so the small sizes can fit a woman's silhouette more accurately. Our sizing is considered "European slim fit", which means our sizing tends to run small for those in the Americas. Please speak with your Givelo rep for more details.*

## Can you match specific Pantones?

*We match the digital design to a specific color book related to each material. Before production, we will send you a pre-print of the real colors on the exact fabric that will be used.*

## Do we have to have a design?

*We can take care of the whole design process for you. Just bring ideas, inspiration and editable logo files. Our design team will bring your ideas to life!*

## How long does the process take?

*Every project varies depending on the initial design steps. The whole process can be as quick as 2 months. Our production promise of 30-35 working days will be the majority of the time elapsed. The quicker we confirm the design process and tick the initial boxes, the quicker we can begin.*

## Can we re-order?

*You can re-order from 12 units. Without design changes, we can go straight to the production stage to speed things up.*

## What other products are available?

*If you are looking for any other specific product, such as t-shirts, simply ask your Givelo rep for a quote. We do have a slightly larger lineup that's offered on demand.*

## How does payment work?

*To begin your custom kit process it only takes ideas! Once you have settled on a design we require 50% payment to start production, and the final 50% when your kit is ready. We offer various types of payment methods, please speak to your Givelo rep to decide on the best payment method for your project.*

## Are taxes included?

*There's no need to worry about taxes, all importation duties are paid by Givelo. Transport is included on all orders about \$2.000 USD, all other orders are calculated at the time of dispatch.*
